

BROOKLYN SHOW WILL HAVE GREAT ACCESSORY DISPLAY

Cars So Well Known That
Side Lines Are Important
Part of Show.

The wonderful growth of the motor car industry in Brooklyn is illustrated in the plans of the Brooklyn Motor Vehicle Dealers' Association for its eleventh annual exhibition, scheduled to be held in the 23d Regiment Armory, March 4, and will last for a full week. There are two big changes in the plans this year and each has been made necessary on account of the great growth of the business.

One change has to do with commercial vehicles. There will be none exhibited this year. Regardless of the size of the armory, the Brooklyn dealers have found it too small to include anything but passenger car lines. The other big change has to do with accessories. Last year the show committee placed a few booths for accessories in one end of the balcony that runs around the armory. It proved to be a very happy idea. First, it permitted the use of space that was not being used by the motor car dealers, and secondly, it added an exceedingly interesting sideshow to a remarkably good exhibition.

Realizing the situation, the Brooklyn dealers decided to use the whole balcony for accessories. The decision of the dealers to add accessories is an excellent indication of the great growth of the motor car industry in Brooklyn. At its first exhibition, which incidentally was not so many years ago, there were hardly enough cars to fill the spaces in the center of the armory. At that exhibition booths were taken by cars not in the motor car industry.

As the industry grew only motor cars were exhibited. At first there were only passenger cars. Then came the commercial car and the dealers managed to include a few lines of trucks and light delivery wagons in the annual exhibition. Each year found the demand for space growing, until it is now practically impossible to stare a show for both ends of the big industry under the same roof at the same time. It is this great growth of the business that has forced the Brooklyn dealers to exclude commercial vehicles from the show this spring.

AGAIN BUILDING 7-PASSENGER CARS

Willis-Knight Resumes Manufacture of Larger Model, Dropped in 1919.

John N. Willis again presented the thousands of visitors at the Chicago Automobile Show this year with a surprise when models of two new seven-passenger Willis-Knight cars were disclosed in the exhibit space of Willis-Overland Company.

The new seven-passenger car is the logical successor of the Willis-Knight cars of similar size, manufactured up to 1919, in which year they were discontinued to make way for the big production on the Overland model 4 and the Willis-Knight model 20, both new models.

The new Willis-Overland creation is a car with a 124-inch wheel-base and uses 32 by 4 1/2 inch tires. The hood design follows the distinct hood lines of the five-passenger Willis-Knight. The power and transmission plants are those that have proved so consistently reliable in the Willis-Knight model now in production. The gear ratio is 5 1/2 to 1.

OVERCOME BY FUMES SUBURBAN MODEL OF ICE HOUSE TANK PROVES POPULAR

Cracked Cylinder Head Frees Ammonia — Many Have Narrow Escapes.

One of the most beautiful enclosed models made by Cadillac.

The Cadillac suburban is one of the most popular enclosed cars in the new Type 41 series, recently announced by the Cadillac Motor Car Company. The beautiful model of Type 41 is primarily designed for the family requiring an enclosed car which seats as many as seven passengers. The coach work and fittings are in thorough keeping with the high Cadillac ideal, and it will undoubtedly continue to be one of the most popular of the Cadillac line.

RIDING COMFORT IS FIRST SOUGHT

Absence of Vibration in New Rickenbacker Model Pleases Purchasers.

"The automobile shows have revealed few radical changes in design," says James J. Hunt, President of the Hunt Motor Car Company, and metropolitan distributor for the Rickenbacker car, "but the most important of what was displayed was embodied in the Rickenbacker. For instance, the double flywheel, instead of the single arrangement that has always been standard, has been a big factor in eliminating vibration. It greatly adds to the perfect balancing of the car and this, of course, insures greater riding comfort."

"It has been noticeable at both the New York and Chicago displays that the prospect was little interested in automobiles unless they related to riding comfort. This to a large extent means the elimination of jars and jouncing."

"In eliminating these disturbances the Rickenbacker is, according to experts, far ahead of any design ever offered. The original chassis and body weighed more than \$6,000 miles before it was pronounced right. The wonderfully rigid frame prevents weaving, while the springs are so constructed that though the car has a wheelbase of but 117 inches, the person riding gets comfort not found in cars of 130-inch wheelbase."

TO WAGE WAR ON SPOOK.

HALIFAX, N. S., Feb. 17.—The famous ghost of Antigonish County today had won the second round of its fight with agnostics and entered upon its third.

First it drove Alex McDonald from his farm in Caledonia Mills in midwinter, with a tale of mysterious fires and cattle that apparently had been stricken by a supernatural hand.

Last night it sent Detective McDon-

How To Avoid INFLUENZA

Nothing you can do will so effectively protect you against the Influenza or Grippe epidemic as keeping your organs of digestion and elimination active and your system free from poisonous accumulations.

Doctors and health authorities everywhere are warning people of the danger of constipation, and advising, and urging everyone to see that the bowels and other eliminative organs act freely and regularly.

Ordinary laxatives, purges and cathartics, salts, oils, calomel and the like, are good enough to clean out the system, but do not strengthen the weakened organs; they do not build up vitality.

Why don't you begin right today to overcome constipation and get your system in such shape that you can feel

reasonably sure of resisting disease. You can do so if you will just get a 25c. box of **Nature's Remedy** (NR Tablets) and take one each night for a while.

NR Tablets do much more than merely cause pleasant, easy bowel action. This medicine acts upon the digestive as well as eliminative organs, promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR Tablet will keep your body in condition and you can always feel your best. Sold and recommended by druggists.
